DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3, 14, 34 are rejected under 35 U.S.C. 102(b) as being anticipated by Springer, U. S. Patent 3,552,702.
3. With respect to claim 1, Springer teaches holder having a pair of spaced apart walls 18 defining an opening therebetween; a cover (portion adjacent groove 28) connecting the walls at one end thereof; and an one bridge (portion adjacent rib 21) connected to and extending between the walls in spaced relation to the cover.
4. With respect to claim 2, Springer teaches holder wherein the walls 18 are disposed in parallel relation to each other and in perpendicular relation to the cover.

5. With respect to claim 3, Springer teaches a pair of flanges 19, each flange being integral with a respective one of the walls and disposed in facing relation to the other of the pair of flanges.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claim 8 is rejected under 35 U.S.C. 103(a) as being unpatentable over Springer. Since the applicant does not disclose that the specific dimension of the wall solves any stated problem or is for any particular purpose, it appears that any suitable dimension would perform equally well.

Election/Restrictions

Claims 9-13, 16-19, 23, 27 and 28 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on July 27, 2005.

Allowable Subject Matter

8. Claims 20-22, 24-26, 29-35 are allowed.
9. Claims 4, 6, 7, 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

10. Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
